Pricing for popular products
April 2017

Notes

- Prices are for current commonly requested software and hardware configurations.
  Please contact us for alternate configurations, camera models and other options.
- All prices are in Australian dollars (AUD), and <u>do not</u> include GST (10% GST is applicable to all Australian purchases).
- Prices do not include freight or any international import/taxes/duties where applicable.
- Contact us to enquire about training associated with hardware and software purchases.

Software

- Student software is for student only use. The software is tied to a nominated computer and expires when the student completes their study (maximum 3.5 years). The fee paid for student software can be credited toward the purchase of academic/research or commercial software.
- Academic/research software cannot be used for commercial purposes. Academic/research software is enabled by a USB key and can be moved between computers. The software does not expire.
- Commercial use software is enabled by a USB key, can be moved between computers, and does not expire.

	Student	Academic/research	Commercial
TransectMeasure Single image benthic analysis, point counts, scaled length and area measurement	AUD 505	AUD 1,010	AUD 2,020
EventMeasure Counting, annotation, analysis, 3D stereo measurement	AUD 1,150	AUD 3,450	AUD 5,700
CAL Stereo camera calibration	AUD 1,185	AUD 3,555	AUD 5,895

Calibration hardware

Calibration hardware is required to calibrate stereo camera systems in combination with the CAL software.

	500 x 500 x 300mm Suitable for close camera separation/close range	**1000 x 1000 x 500mm** For typical fish measurement applications
Calibration hardware Calibration 'cube' & scale bar	AUD 2,180	AUD 3,275

Camera housings, remote and diver camera systems

Prices do not include cameras, camera batteries or storage media.

	GoPro Hero/2/3/4 112mm diameter, tested to 100m Suits Brunton All Day/2.0 batteries **GoPro Hero 5 Black***	Canon HFG10/20/25 138mm diameter, tested to 100m	Canon HFG10/20/25 w/ controls With external on/off stop/start controls 158mm diameter, tested to 60m
Camera housing Camera housing only	AUD 695	AUD 1,110	AUD 1,460
Single camera baited remote system Galvanised frame w/ 4x5kg ballast, 1 x housing	AUD 1,665	AUD 2,080	AUD 2,430
Stereo baited remote system Galvanised frame w/ 4x5kg ballast, removable camera base bar, 2 x housings	AUD 2,540 AUD 3,140　(w/ diode)	AUD 3,370 AUD 3,970　(w/ diode)	AUD 4,070 AUD 4,670　(w/ diode)
One-piece stereo diver One-piece aluminium base bar w/ handles, 2 x camera housings	AUD 2,000	AUD 2,956 AUD 3,756　(w/ diode)	AUD 3,656 AUD 4,456　(w/ diode)
Collapsible stereo diver Collapsible aluminium base bar w/ handles, 2 x camera housings	AUD 2,300	AUD 3,356 AUD 4,156　(w/ diode)	AUD 4,056 AUD 4,856　(w/ diode)
Collapsible stereo diver in hard case w/ wheels Collapsible aluminium base bar w/ handles, 2 x camera housings	AUD 2,760	AUD 4,176 AUD 4,976　(w/ diode)	AUD 4,876 AUD 5,676　(w/ diode)

* Housings for GoPro Hero 2/3/4 cannot be used with the Hero 5 Black and vice versa.
  The Hero 5 Black housing provides access to the SD card, battery (for swapping), USB port, and touch screen without the need to remove the camera from the mounting system, providing ultimate stereo calibration stability.
  A single control can be added to the Hero 5 Black housing for on/off and stop/start (using *QuikCapture*), add AUD260 per housing.
