## Pricing for popular products

Prices last modified: January 2024

### Notes

- Prices are for current commonly requested software and hardware configurations. Please contact us for alternate configurations, particularly different camera models and other camera system hardware options.
- All prices are in Australian dollars (AUD), and do not include GST. 10% GST is applicable to all domestic Australian purchases. GST does not apply to export sales.
- Prices do not include freight or any international import/taxes/duties where applicable.

## Software

- Student software is for student (research) only use. The software is tied to a nominated computer and expires when the student completes their study (maximum 3.5 years). The fee paid for student software can be credited toward the purchase of academic/research or commercial software.
- Academic/research software cannot be used for commercial purposes. Academic/research software is enabled by a USB key and can be moved between computers. The software does not expire.
- Commercial use software is enabled by a USB key, can be moved between computers, and does not expire.

	Student	Academic/research	Commercial

<b><u>Calibration hardware</u></b> Calibration 'cube' & scale bar	AUD 3,060	AUD 3,890

## Camera housings, remote and diver camera systems

- Prices do not include cameras, camera batteries or storage media.
- Housing lengths can be customised to suit battery/power pack options (typically there is no extra cost for additional housing length).
- Housings are designed to provide access to memory card, battery, charging/data ports, and camera controls/settings without the need to remove the camera from the mounting system, providing stereo calibration stability.
- Contact us for camera models and housings not listed below.

	<b>GoPro Hero 5/6/7 Black<sup>1,2</sup></b> <b>GoPro Hero 8 Black<sup>1</sup></b> <b>GoPro Hero 9/10/11/12 Black<sup>1</sup></b> All 112mm diameter, tested to 150m
